

CSE 422: Artificial Intelligence
Brac University

Quiz 01 (SET A)

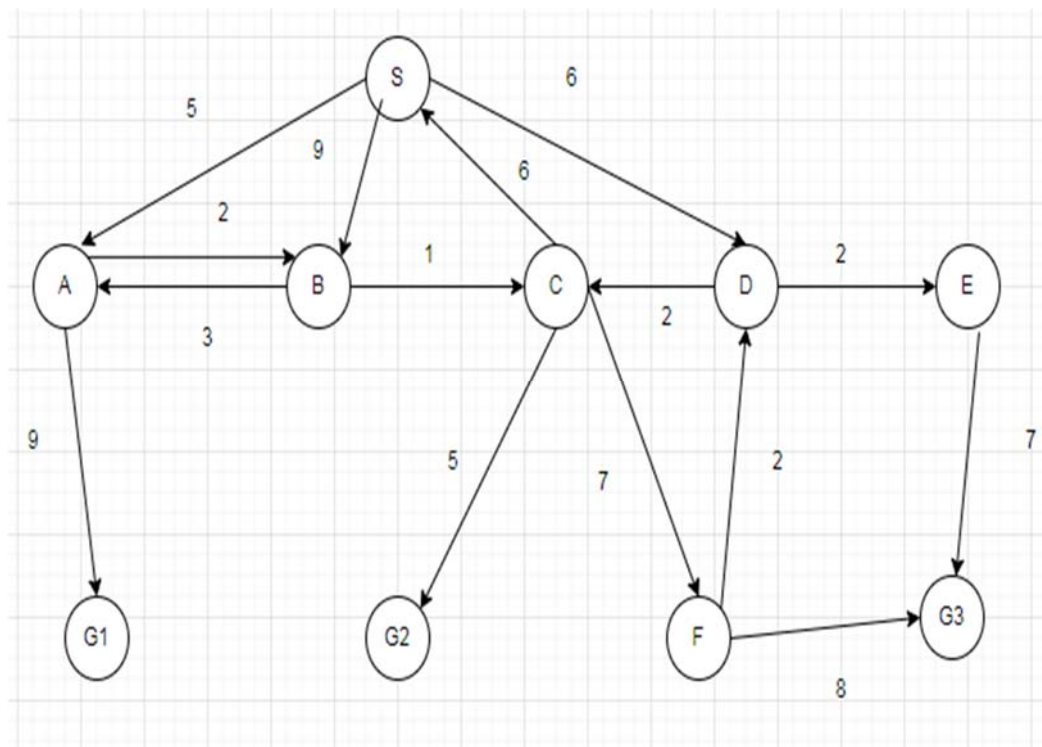

Full Marks: 10

Time: 45 mins

Name:	ID:	Section:
--------------	------------	-----------------

CO2

4

1. Simulate A* search on the given graph and **deduce** the optimal path to the goal. Also, provide the final total cost of the optimal path. **Here S is the initial node.**

A = 5	F = 4
B = 1	G1 = 0
C = 2	G2 = 0
D = 4	G3 = 0
E = 3	S = 8

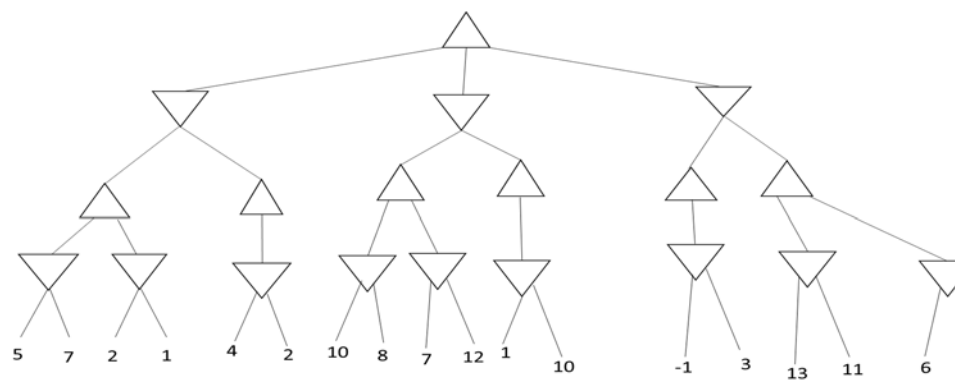

CO2

2. Describe “Local maxima” with a diagram and **analyze** one way to overcome it. 2

CO2

3.

4

Apply alpha-beta pruning algorithm in the same tree, mark the pruned branches and calculate the values of nodes.
